

ADAMS VIP HOSTED UNIFIED COMMUNICATIONS

More Features, More Innovation, More Productivity

More than just a phone system, Adams VIP is a Hosted Unified Communications solution that gives businesses the ability to be accessible anytime, anywhere, on any device. You can now take advantage of integrated mobility and collaboration tools without the cost of maintaining expensive on-site equipment. Easy to personalize and easy to use, Adams VIP will link everyone in your company, allowing you to communicate more efficiently and effectively. And, since it's from Adams, you get trusted service and dedicated individuals to help you every step of the way.

Productivity Features

Simultaneous ringing, find me/follow me, voicemail-to-email, web meetings, desktop sharing and seamless integrated mobility are just a few of the features Adams VIP offers. It all can be personalized for each user, with no on-site IT expert required. Your existing phone numbers can be ported to the new service, eliminating the need to change business collateral or contact information.

Seamless Integrated Mobility

You no longer need to be tethered to your desk. Adams VIP lets you conduct business on your smartphone, tablet or laptop – anywhere the Internet is available. Whether you have an Android or iOS device, or a Windows or Apple OS computer, our app lets you make and take calls with your work number, access contacts and share files.

Collaboration Tools

Adams VIP gives your employees an easy way to work together – whether they're in the office, at home or on the road. It starts with Instant Messaging with Presence, a way to tell at-a-glance if coworkers are available, busy, away or offline. Plus, you get file sharing, desktop sharing, video conferencing and audio conference calling with individual moderator codes.

Unlimited Local and Long Distance

Adams VIP includes unlimited local and long distance, helping you save on business expenses.

Adams VIP Customer Portal – Powerful and Easy to Use

Adams VIP has a unique, widget-based Customer Administration Portal that makes controlling every aspect of your phone system easy. One user can be designated as administrator for the overall solution, while all others are able to manage their individual features and needs themselves.

Incomparable Customer Care

Adams is focused on getting your new communications solution up quickly so your business can immediately realize the productivity benefits built into our hosted solution. Our back-office systems and portals have been carefully designed to achieve that outcome, and are backed by our dedicated personnel. Adams stands ready to quickly respond to your needs long after the sale.

Low, Set Monthly Fees

With no on-premise PBX system to upkeep, you simply pay a small, set fee every month. No surprises.
