# Business Wi-Fi Built for You

Adams Fiber SmartBiz gives you the tools to protect your business, serve your customers, and always stay connected - all backed by trusted local support.

Secure Networks. Safer Business

Adams Fiber SmartBiz protects your business with built-in cybersecurity and isolated networks that keep point-of-sale systems, staff devices, and guest access safely separated—reducing risk and giving you peace of mind

Easily Manage It All

With the Adams Fiber SmartBiz app, you can manage your entire business network—monitor usage, set access rules, and troubleshoot issues—right from your phone, no IT team required.

Constant & Consistent Connection

With integrated internet backup, Adams Fiber SmartBiz keeps your business connected when the unexpected happens—saving you from costly downtime

Welcome Guests with a Branded Experience

Adams Fiber SmartBiz includes a customizable guest Wi-Fi portal that lets you showcase your brand while offering secure, isolated Wi-Fi access for customers and visitors.
